

18.3 GENERAL CONTRACTOR'S INSURANCE

The Port of Helsingborg has co-ordination responsibilities for safety measures within the enclosed port area.
The port area is CCTV supervised.

The coordinator responsible is:

Coordination officer can be reached by phone:

The following rules shall apply in the port area:

- Maximum permissible speed is 30 km/h.
- High visibility clothing, Minimum class 3, according to EN 471 or EN 20471
- Safety Helmet According to EN 397 must be worn within the crane area, on boat, on work at a higher altitude and in other work where risk assessment has shown that the safety helmet is needed.
- Safety Footwear (with protective pads and protective toe caps).
- All vehicles are equipped with rotating/flash light on.
- It is forbidden to walk/cycle outside your own work area, unless otherwise stated by the client.
- In case of risk of falling where the fall height is two metres or more, fall protection equipment shall be used.
- Within the Energy Port, there is a ban on open flames and smoking bans.
- Hot work permits required.
- All dangerous goods to the port area must be pre-notified.

For all electrical work within the HHAB area of responsibility:

- Prior to initiating electrical work, the electricity manager of HHAB, which provides applicable rules for electrical safety, is contacted.
- Transport between the port parts and in the port area takes place on the intended driving routes. Note!! Forbidden to drive vehicles through the container blocks unless the work requires or information from the coordinating officer.
- In the port area, the handling of goods with heavy work machines is therefore requested to take a lot of attention.

I commit to complying with the above rules and I have taken note of and assured me of the safety rules applicable to HHAB with the attached safety regulation.
